Preface

These are running notes from my course on Data Structures and Algorithms at IIT Gandhinagar.

If you would like to have access to the weekly assignments, you might want to register for the course [here](#) (it's free).

1 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

2 Summary

In summary, this book has no content whatsoever.
